

Marine Biology & Ecology Diploma

16-19

Adult

Careers in Marine Biology and Ecology are some of the most sought-after jobs, providing the opportunity to travel the world and explore the wonder of the oceans as part of your day to day work.

Whether your dreams involve living on tropical islands protecting reefs, studying mega-fauna such as sharks, observing the movement of whales in the arctic or monitoring fisheries in coast off the Isles of Scillies, this course is the ideal starting place.

The Marine Biology & Ecology Level 3 Diploma at Falmouth Marine School benefits from a long history of teaching, specialist equipment, and a wealth of teaching expertise.

Our facilities are unique at college level, with no other course in the UK offering the same opportunities and resources. Whether on the boat learning about marine surveying techniques, in the laboratory practicing identification, or using the different aquaculture/fish tanks in the wet lab, this course offers something special and provides the perfect opportunity for anyone looking to stand-out and develop a bright future in marine environment sciences.
