

Marine Engineering Diploma

16-19

Adult

If the possibility of a career filled with challenges, job satisfaction and travel appeals you, then maybe you should consider studying to become a marine engineer.

Our Level 3 Marine Engineering diploma is predominantly a practical programme, focused on giving learners the ability to diagnose, analyse and calibrate marine mechanical systems and components found on inboard and outboard engines. Learning is focused around fault analysing, diagnosing, and servicing and maintaining of marine mechanical systems and components.

Our workshop at Falmouth marine school is one of the largest marine specific training areas in the U.K, allowing learners to utilise a wide variety of specialist tools to perform maintenance and diagnostic processes on our industry endorsed equipment.

Choosing to study at Falmouth Marine School means that you will be joining a college with 100 years of training experience, whilst learning from our industry experts will give you the best start to your future career.
