

NCFE L2 Certificate in Counselling Skills (Falmouth Evening)

Adult

Employer Training

If you wish to become a fully qualified counsellor, develop helping skills or if you are simply interested in the field of counselling then the NCFE Counselling Studies at Level 2 is your starting point qualification.

The course costs £510 for those who are self-funding, however fees are waived for low income applications. We have two intakes, one in September and one in March. All students who successfully complete their course, from both intakes, will be able to apply to further counselling courses that start in the following September.

The course will introduce you to counselling theory, we will focus on the Person-Centred paradigm as this is the counselling approach which underpins all our counselling training at Cornwall College. You will get the chance to practice counselling skills with your peers and receive feedback from tutor observations. You will also learn about the professional boundaries and ethical standards that counsellors adhere to and the wide-ranging opportunities that a career in counselling can offer.

Please note, that there is no automatic progression route between our courses. Each qualification requires a rigorous assessment process including an interview, and due to limited places, you may be placed on a waiting list or may not be successful on your first application.
